INVESTING IN YOUR BUSINESS

Explosify your workflow.

JOIN US AT INSPIRE 2012 AND GO HOME WITH A 16 KEY RPG KEYS

As part of this promotion, Inspire has invested in your future by partnering with RPG KEYS to let you try this \$349 product for free!

You will leave the conference with the 16 key RPG KEY and a 60 day trial to jumpstart your photo editing in the new year!

This offer is only valid for photographers who have registered to attend Inspire 2012 in March and is limited to the first 50 people who RSVP through the RPG website. All keys will be distributed at the Inspire 2012 conference only! A representative from RPG Keys will be at the Inspire conference to give tutorials and advice about how to incorporate the RPG Keys into your workflow.

Go to www.inspirephotoseminars.com today and register to attend the Inspire conference. Your confirmation email will include an invite for this special promotion.

If after 60 days with the keys you're not in love, you simply return the keypad to RPG KEYS. If you get hit by cupid's arrow, you can purchase it for \$349 or rent it for \$19 a month. Either way the 60 day trial is risk free thanks to your family at Inspire!

Cut Your Photo Editing Time In Half in 2012!

An RPG KEY is a photo editing keyboard designed to help you get your post production work done in a fraction of the time. This shortcut keyboard works with Photoshop, Aperture, Lightroom, Bridge and more!

The Fine Print

A \$1 purchase and user agreement is required to keep people from running off to Mexico with this \$349 keypad. A \$19 monthly subscription starts 60 days after the conference if the keyboard is not returned or purchased. The idea is to keep the honest people honest so the guys at RPG can still feed their family if you skip town.
